

ACTIVATE™

HCT

MICROBIAL INOCULANT SOLUBLE NONPLANT FOOD INGREDIENT

DESCRIPTION

ACTIVATE™ HCT contains a synergistic blend of petroleum degrading and organic waste degrading bacterial strains. These bacterial strains work under diverse environmental conditions and provide the most complete digestion of petroleum and petroleum degradation by-products. May be used to directly treat soil contamination as well as wastewater systems.

APPLICATION

Soil Use: Apply 1 to 2 pound per acre to degrade oil contamination in the soil. Water Treatment: Use 20 grams per 1000 gallons of wastewater. Reapply every 3-4 weeks. For ongoing contamination, monthly or bi-weekly rates must be used. Multiple applications work best. Co-apply with a food source such as Wake Up Organo for greatly enhanced response.

GUARANTEED ANALYSIS

4 billion CFU (colony forming units) per gram minimum bacterial concentration of Bacillus and Pseudomonas species.

STORAGE

Store in a cool, dry place. Avoid prolonged exposure to direct sunlight. Tightly re-seal after opening to preserve shelf life. Store between 35° and 80°F. Do not freeze.

COMPATIBILITY

ACTIVATE™ HCT is compatible with most fertilizers, but the benefits of **ACTIVATE™ HCT** will be reduced when applied during the use of strong chemicals.

CAUTION

Product is safe and non-toxic when used as directed. Keep out of reach of children and pets! Do not inhale or ingest. Avoid contact with skin, eyes, or clothing. In case of contact, flush with water. If swallowed, drink water and consult a physician.

NOTICE - Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. Since weather, crop and soil conditions may vary, NRG and/or seller make no warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risks of use and handling, whether or not in accordance with directions or suggestions.
