

# ANCHOR

## Liquid Herbicide Complexor For Turf

### DESCRIPTION

**ANCHOR** is a liquid formulation of plant extracts to be added to herbicides and fertilizers before applying to turf. Anchor is specifically designed to stabilize herbicides, deter leaching and minimize movement in the soil when added to most chemicals and fertilizers.

### COMPATIBILITY

**ANCHOR** is compatible with most fertilizers, fungicides and pesticides. In all cases, it is recommended that a jar test be made to determine the compatibility of **ANCHOR** with other materials before proceeding with high volume mixing.

### APPLICATION

Mix 1 part **ANCHOR** to 4 parts herbicide to be complexed and apply as usual. May also be used to complex liquid NPK fertilizers. Blend **ANCHOR** at a ratio of 1 to 40 with fertilizer prior to application.

### STORAGE

Store in a cool, dry place. Avoid prolonged exposure to direct sunlight. Tightly reseal after opening to preserve shelf life.

### CAUTION

Product is safe and nontoxic when used as directed. Keep out of reach of children and pets! Do not inhale or digest. Avoid contact with skin, eyes, or clothing. In case of contact, flush with water. If swallowed, drink water and consult a physician.

**NOTICE** - Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. Since weather, crop and soil conditions may vary, NRG and/or seller make no warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risks of use and handling, whether or not in accordance with directions or suggestions.

### GUARANTEED ANALYSIS

Total Nitrogen (N).....	0.17%
Available Phosphoric Acid (P <sub>2</sub> O <sub>5</sub> ).....	0.17%
Soluble Potash (K <sub>2</sub> O).....	0.28%
Calcium (Ca) .....	0.146%

NON PLANT FOOD INGREDIENTS: Plant extracts.
