

NPK COMPLEXOR

Liquid Soil Nutrient Complexor For Soil Applied NPK

DESCRIPTION

NPK COMPLEXOR is a liquid formulation designed to be mixed with soil applied NPK fertilizers to stop the leaching of nitrogen and to prevent the tie up of phosphate and potassium in the soil, keeping nutrients available to the plant.

COMPATIBILITY

NPK COMPLEXOR is compatible with most fertilizers, fungicides and pesticides. In all cases, it is recommended that a jar test be made to determine the compatibility of **NPK COMPLEXOR** with other materials before proceeding with high volume mixing.

APPLICATION

FOR SOIL APPLIED NPK FERTILIZERS: Add 6 1/2 ounces to every gallon of nitrogen, phosphorus or potassium (or 1 gallon **NPK COMPLEXOR** per 20 gallons of fertilizer).

STORAGE

Store in a cool, dry place. Avoid prolonged exposure to direct sunlight. Tightly reseal after opening to preserve shelf life.

CAUTION

Product is safe and nontoxic when used as directed. Keep out of reach of children and pets! Do not inhale or digest. Avoid contact with skin, eyes, or clothing. In case of contact, flush with water. If swallowed, drink water and consult a physician.

NOTICE - Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. Since weather, crop and soil conditions may vary, NRG and/or seller make no warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risks of use and handling, whether or not in accordance with directions or suggestions.
