## Granular Microbial Inoculant For Turf

### DESCRIPTION

**NEMAGARD** is a precise blend of nutrients and *Bacillus* bacteria spores to promote microbial diversity and to inhibit the growth of some pathogens.

### APPLICATION

**GOLF COURSE:** Use 160 pounds of Nemagard per acre (4 pounds per 1000 sq. ft.) of turf beginning in March or April. Repeat application in 60 days.

### MICROBIAL CONTENT

Contains: *Bacillus chitinosporus*, *Bacillus laterosporus*, *Bacillus pumilus*, *Bacillus megaterium*, *Bacillus subtilis*, *Bacillus licheniformis*, and *Bacillus amyloliquefaciens*.

### STORAGE

Store in a cool, dry place. Avoid prolonged exposure to direct sunlight. Tightly reseal after opening to preserve shelf life.

### COMPATIBILITY

**NEMAGARD** is compatible with most fertilizers, but the benefits of **NEMAGARD** will be reduced when applied during the use of strong chemicals.

### CAUTION

Product is safe and nontoxic when used as directed. Keep out of reach of children and pets! Do not inhale or digest. Avoid contact with skin, eyes, or clothing. In case of contact, flush with water. If swallowed, drink water and consult a physician.

**NOTICE** - Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. Since weather, crop and soil conditions may vary, NRG and/or seller make no warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risks of use and handling, whether or not in accordance with directions or suggestions.
