

ACEITE

Vegetable Oil Organic

DESCRIPTION

ACEITE is a carefully blended combination of refined vegetable oil and selected emulsifiers. It is intended as an adjuvant to be used with agricultural chemicals to aid in deposition, spreading and retention of active ingredients on plant surfaces.

COMPATIBILITY

ACEITE is nonionic. Due to variations in ingredients selected for mixing, water quality and other variables, compatibilities should be determined prior to batch mixing.

CAUTION

Product is safe and non-toxic when used as directed. Keep out of reach of children and pets! Do not inhale or ingest. Avoid contact with skin, eyes, or clothing. In case of contact, flush with water. If swallowed, drink water and consult a physician.

APPLICATION

ACEITE should be mixed with various agriculture chemicals according to the directions provided with the products to be mixed with **ACEITE**. If the labels make no reference to additives, use **ACEITE** at 1-2 pints per acre, but do not exceed 5% of total. Normal mixing order of ingredients should be followed. **ACEITE** should be added last. When used with oil-soluble products, **ACEITE** can be pre-mixed with these products prior to mixing with water.

STORAGE

Store in a cool, dry place. Avoid prolonged exposure to direct sunlight. Tightly re-seal after opening to preserve shelf life.

NOTICE - Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. Since weather, crop and soil conditions may vary, NRG and/or seller make no warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risks of use and handling, whether or not in accordance with directions or suggestions.

GUARANTEED ANALYSIS

Functioning Agents..... 100%
Ingredients:
Vegetable Oil.....92%
Emulsifiers.....8%

(All ingredients are exempt from residue requirements on growing or harvesting agricultural crops as established by the U.S. Environmental Protection Agency).
