

AQUACOMP 101S

Soluble Nutrients For Compost Tea

DESCRIPTION

AQUACOMP 101S is a readily available form of nutrients to be added to compost tea to supplement and enhance the quality. Supplies nutrients and suppresses fungal diseases. Includes microbial food and inoculum that stimulates rooting, increases plant vigor, and enhances microbial activity and diversity in the soil. May be tank mixed with fertilizer or injected into irrigation water.

COMPATIBILITY

AQUACOMP 101S is compatible with most fertilizers, fungicides and pesticides. In all cases, it is recommended that a jar test be made to determine the compatibility of **AQUACOMP 101S** with other materials before proceeding with high volume mixing.

APPLICATION

Add 1 pound of **AQUACOMP 101S** per 20 gallons of compost tea at the end of the leaching cycle. Allow to brew with air injection for 2 to 4 hours before application. Apply finished compost tea at a rate of 5 to 15 gallons per acre per season using 2 to 3 applications.

STORAGE

Store in a cool, dry place. Avoid prolonged exposure to direct sunlight. Tightly reseal after opening to preserve shelf life.

CAUTION

Product is safe and nontoxic when used as directed. Keep out of reach of children and pets! Do not inhale or ingest. Avoid contact with skin, eyes, or clothing. In case of contact, flush with water. If swallowed, drink water and consult a physician.

NOTICE - Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. Since weather, crop and soil conditions may vary, NRG and/or seller make no warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risks of use and handling, whether or not in accordance with directions or suggestions.
